Massena Public Library

Virtual Programming Policy

The Massena Public Library may provide virtual programming for the convenience of the public or for the health and safety of staff and patrons. All virtual programming will be established in accordance to the library mission and programming policy. Virtual programming may take place on the Massena Public Library website, Facebook Page or other social media or a communications platform such as Zoom.

Copyright
The library will abide by all copyright laws pertaining to any titles used during a virtual program.

Internet Safety/Privacy
The safety of library patrons is a high priority. The library will take all measures necessary to ensure the online safety and privacy of program attendees. These measures may include but are not limited to:

- Conducting programs as "private" events where access is encrypted, or registration is required.
- Identifying children by their first name only during a live interactive event
- Requiring participants to adhere to the Massena Public Library Patron Conduct Policy as if they were physically present in the library building. Those not adhering to the Patron Conduct Policy may have their audio and/or video disconnected or be removed from the virtual program at the library staff member's discretion.

This Policy was adopted by the Massena Public Library Board of Trustees on March 14, 2023.
